# OZONE THERAPY

The research into Ozone Therapy continues to grow, especially as a solution to respiratory conditions and immune resistance.

Ozone has been used as a form of treatment to treat a variety of illnesses.

We administer Ozone Therapy to patients as a safe alternative to conventional medication when the benefits can significantly improve the body's healing.

## BENEFITS:

Strengthen respiratory system

Improve circulatory system by cleaning arteries and veins

Inactivate bacteria, viruses, fungi, parasites and yeast

Stimulate immune system.

Pain relief from fractures and wounds

Improve brain function and memory

Reduce abnormal heart rhythm and minimise damage from stroke
